

Son initial donné

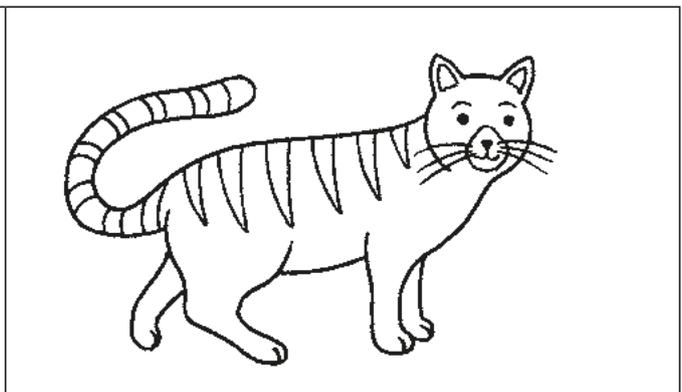

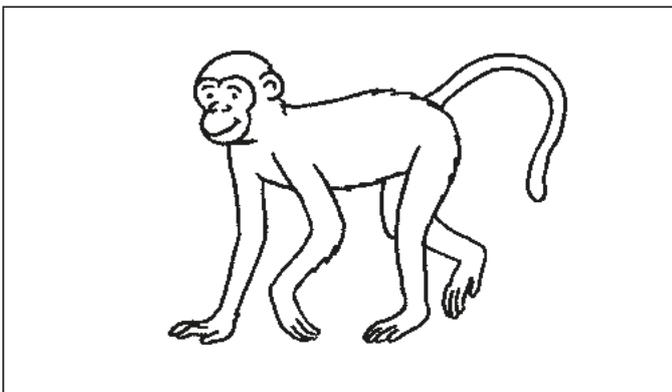

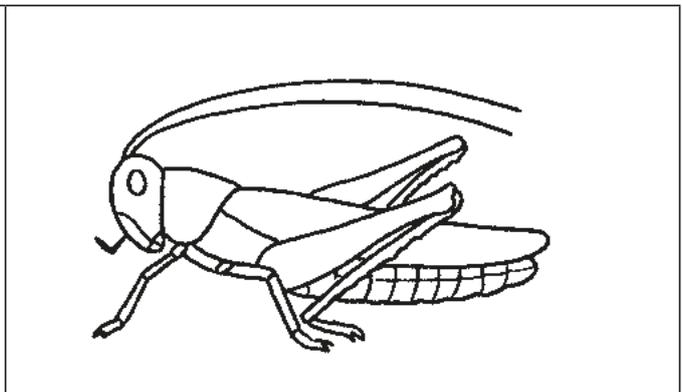

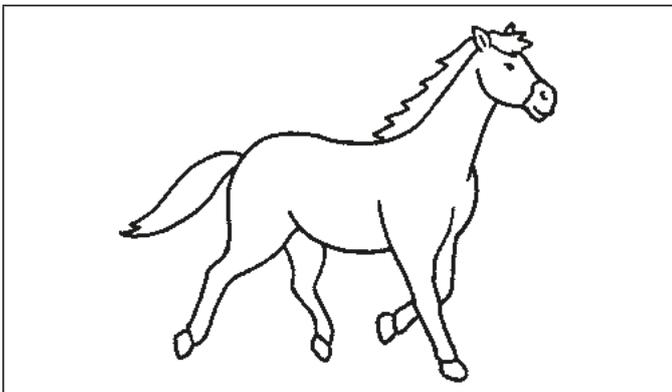

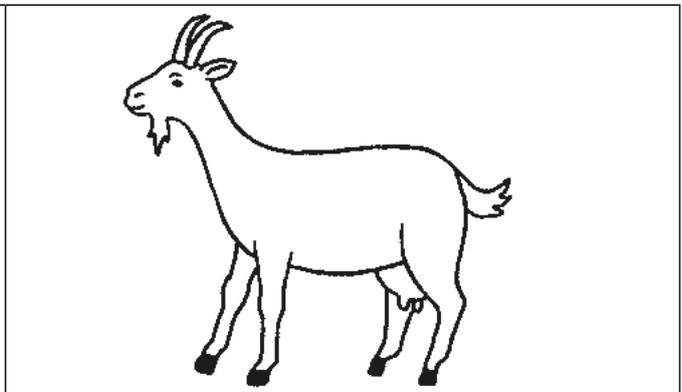

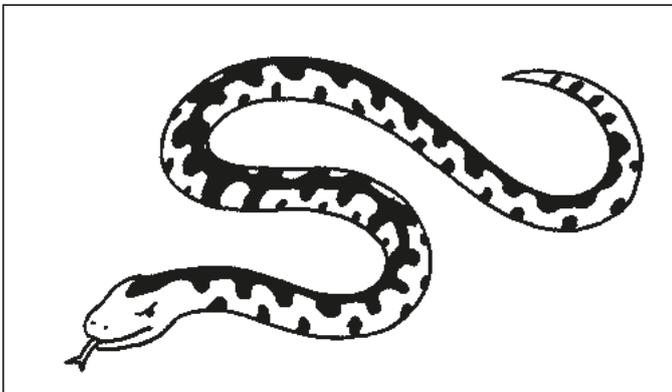

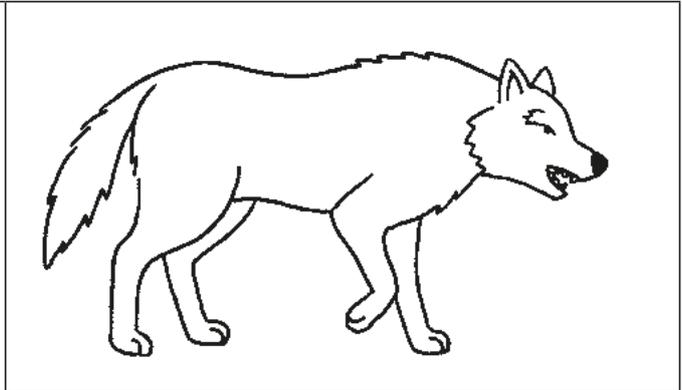

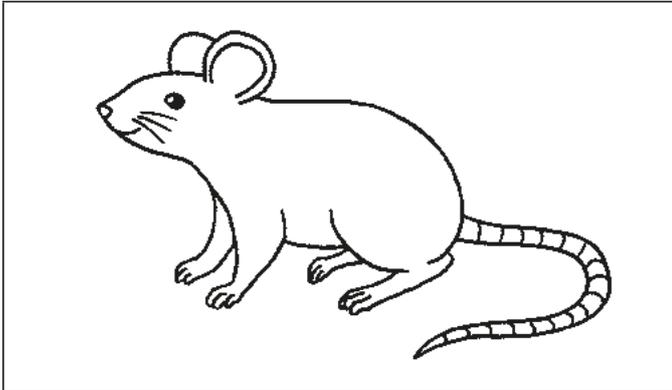

→ Sur chaque ligne, sélectionne le dessin du mot qui commence par le son [l].

A1

Son initial donné

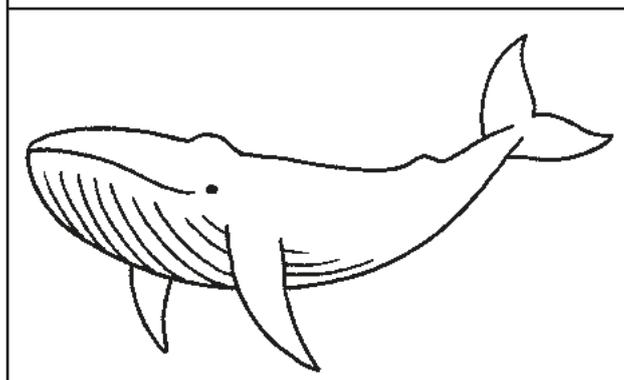

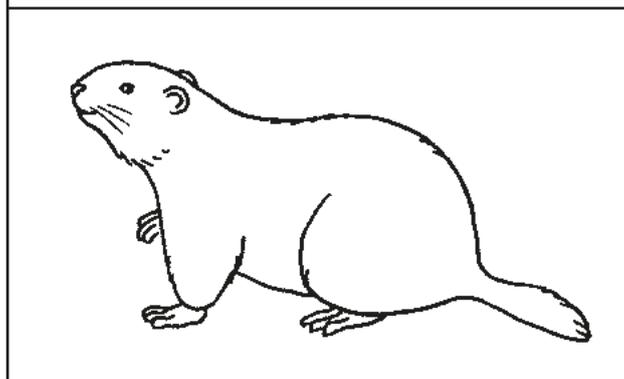

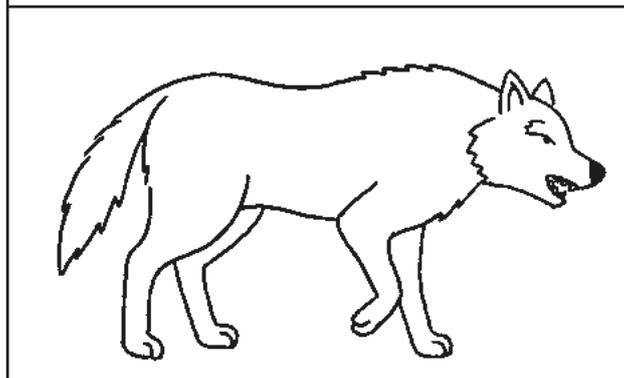

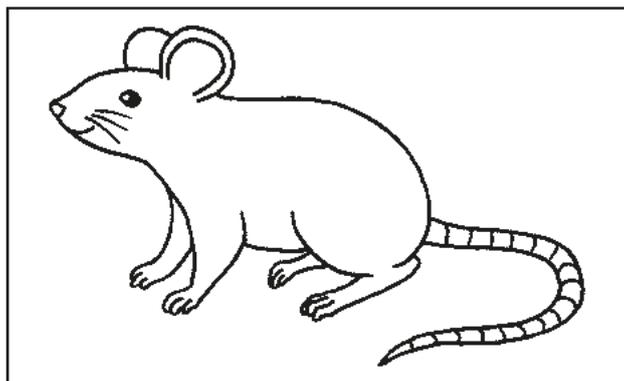

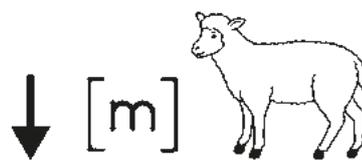

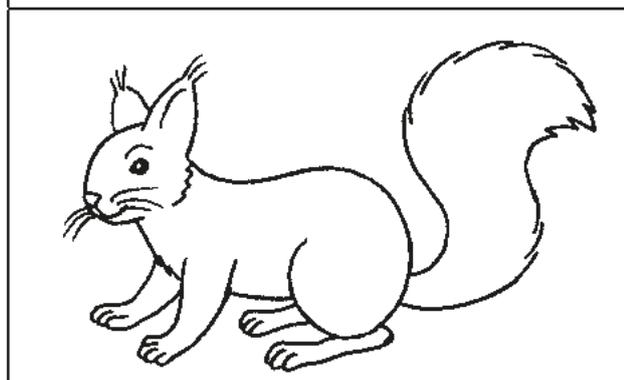

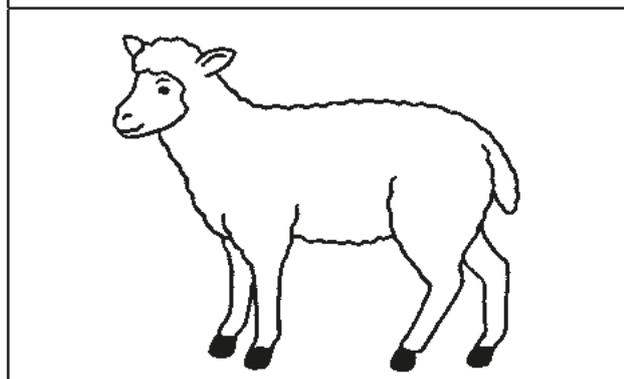

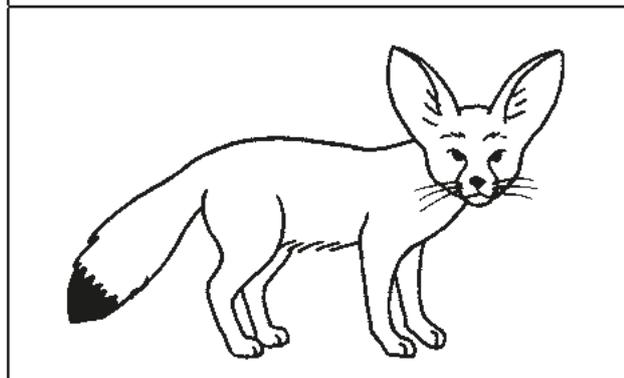

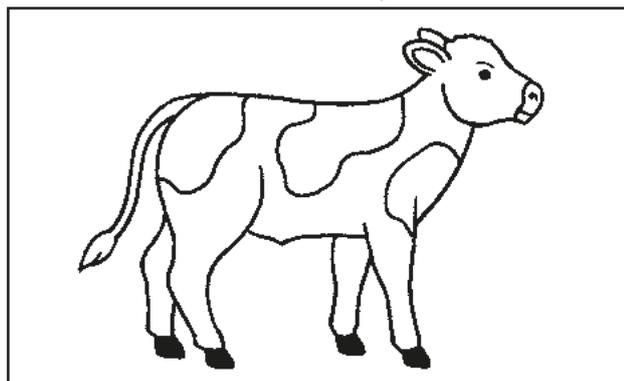

→ Sur chaque ligne, sélectionne le dessin du mot qui commence par le son [s].

A2

Son initial donné

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le son donné.

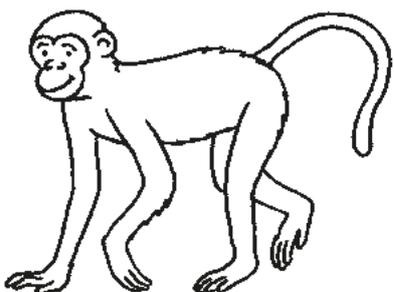

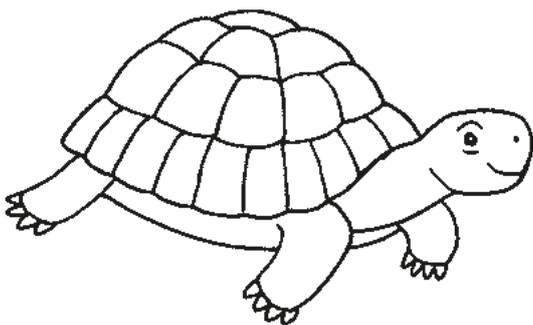

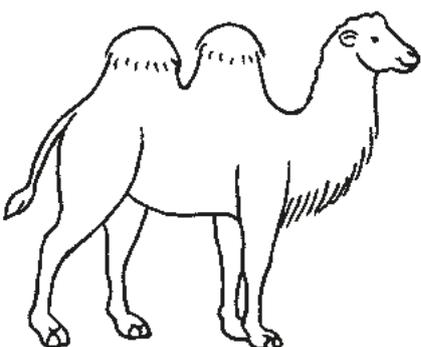

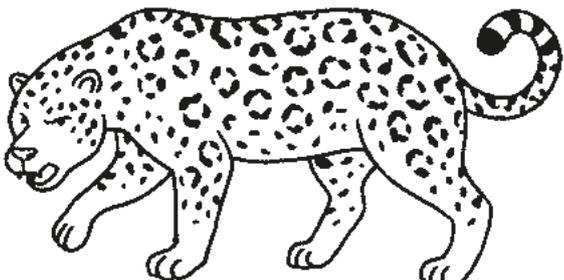

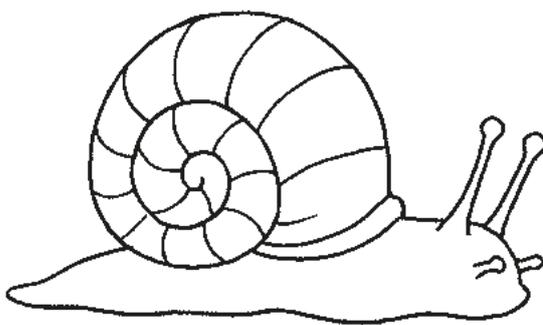

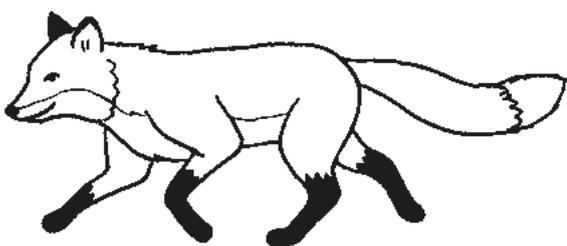

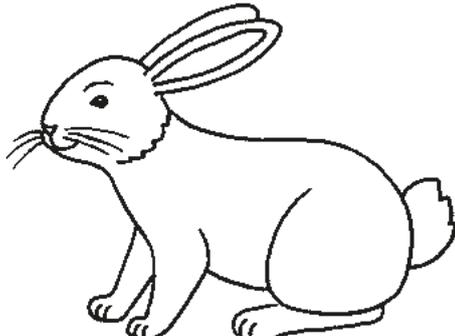

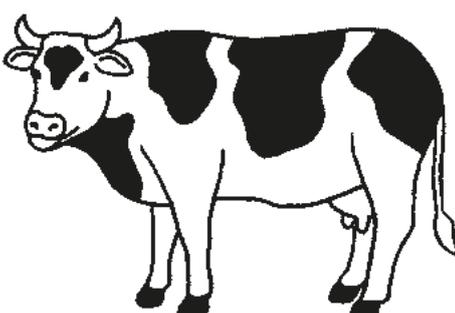

B1

Son initial donné

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le son donné.

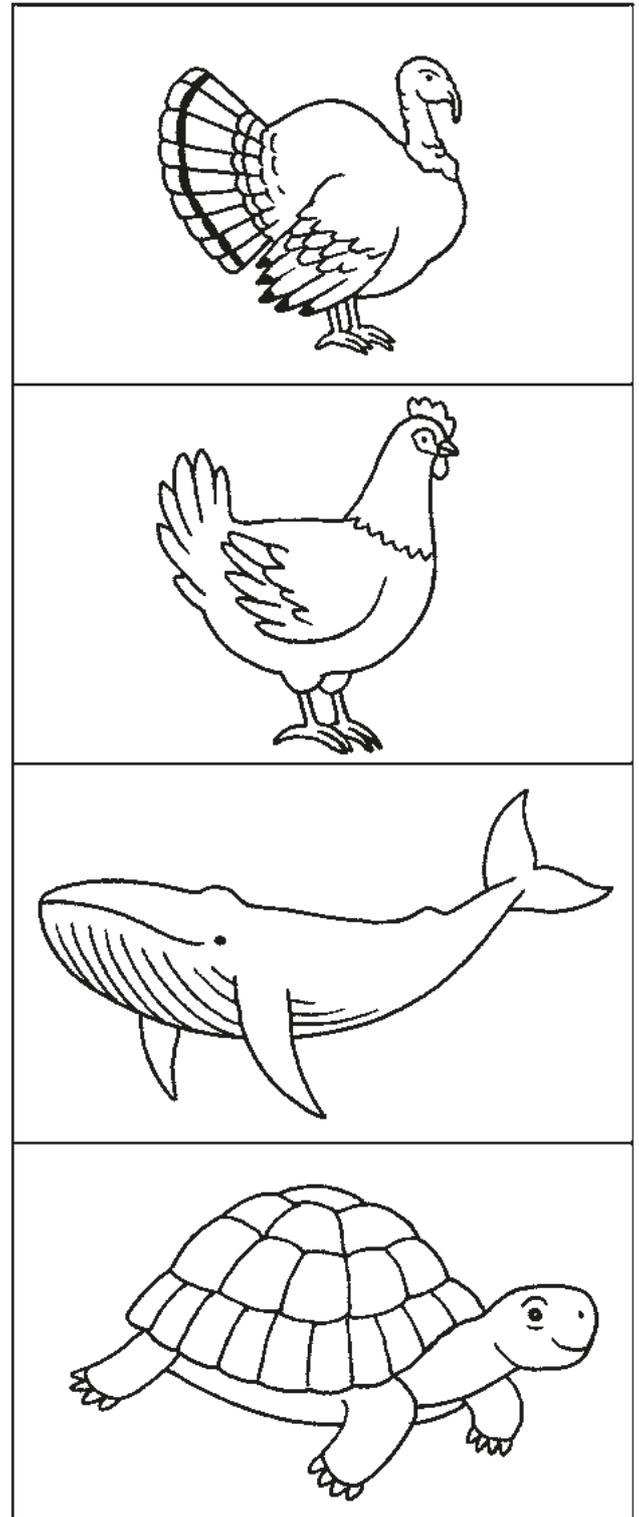

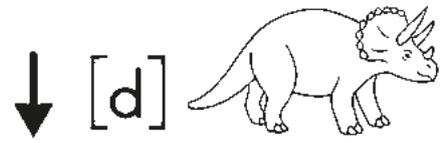

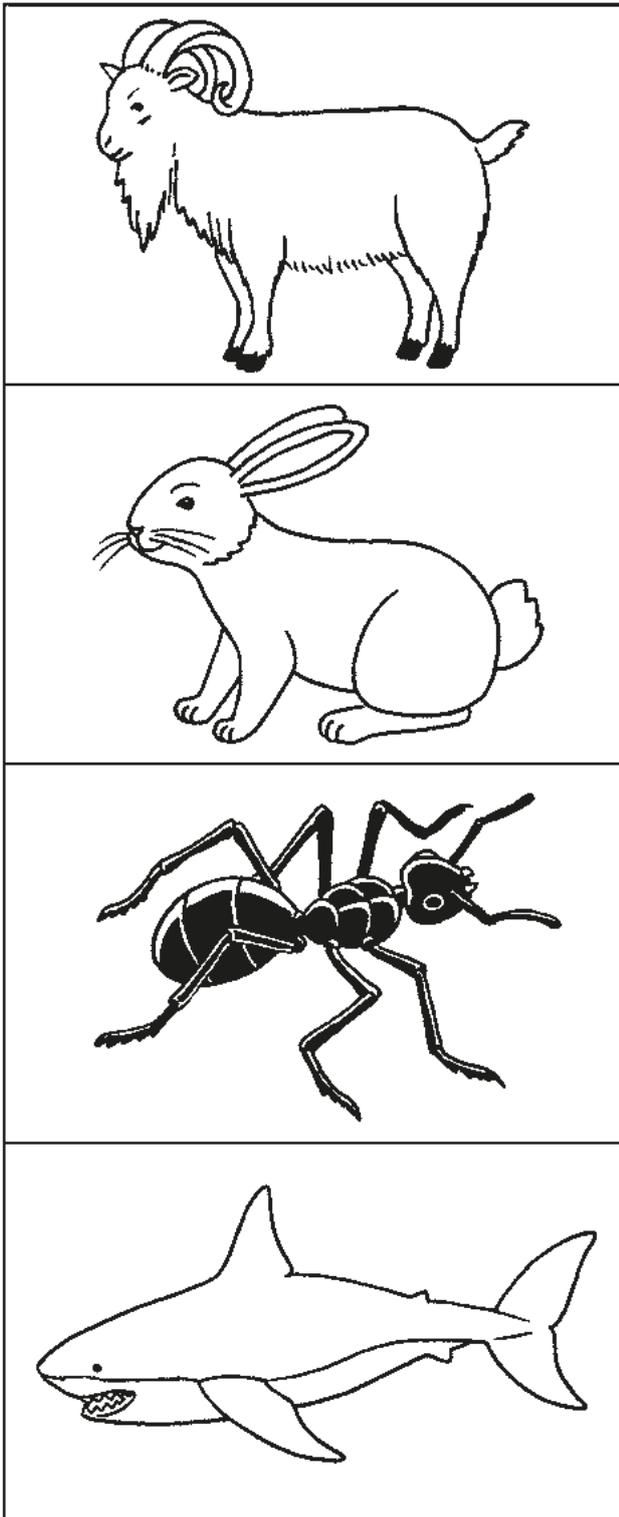

B2

Son initial donné

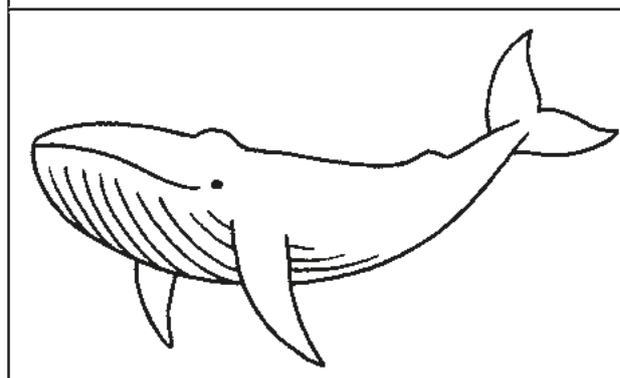

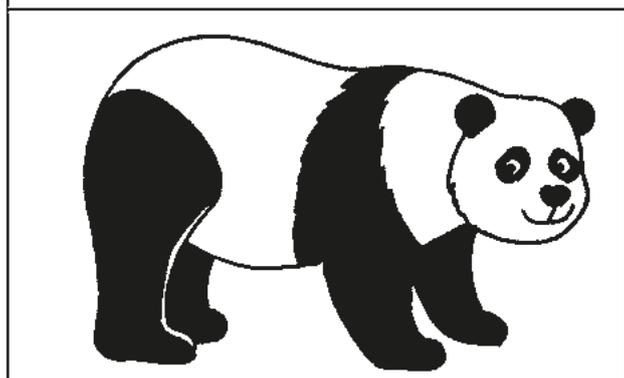

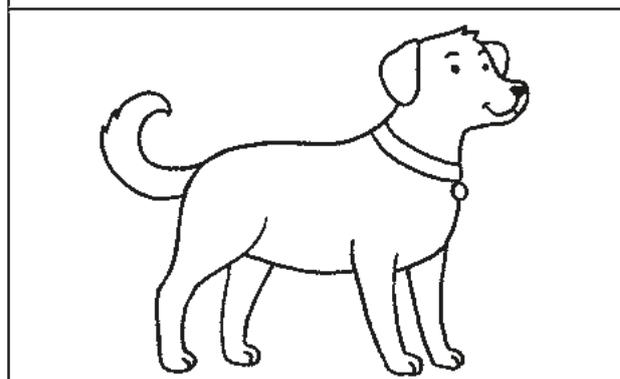

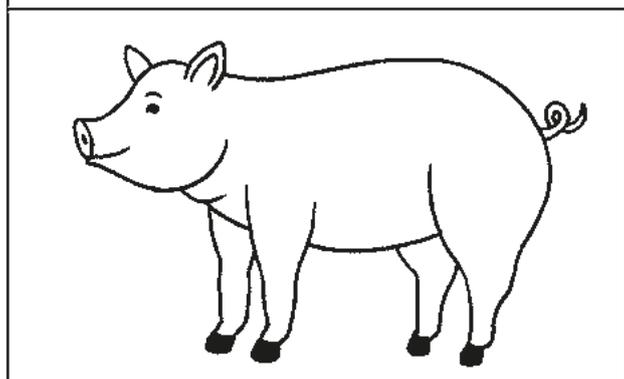

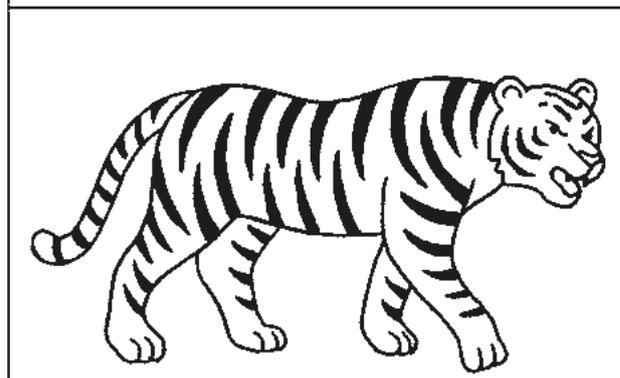

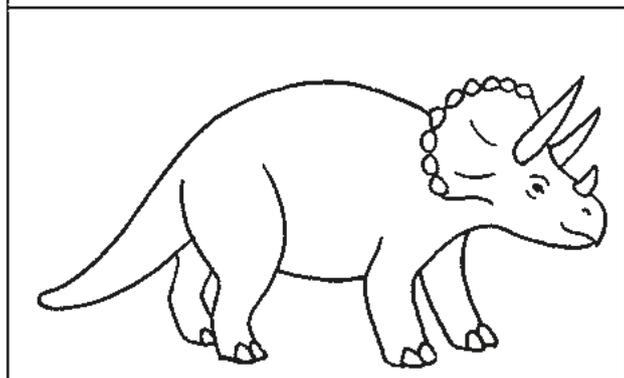

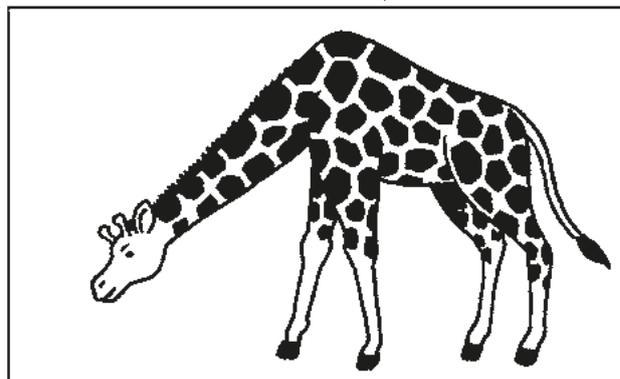

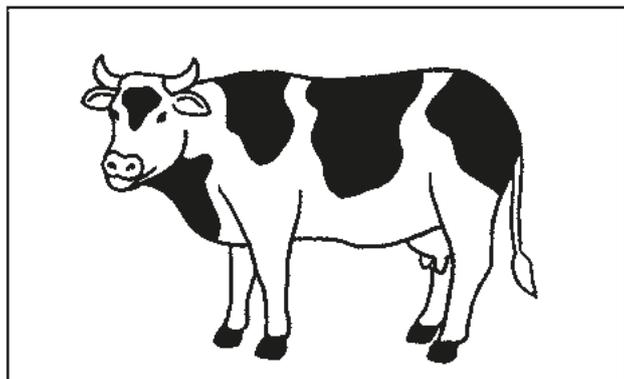

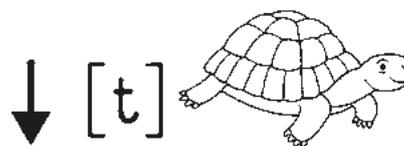

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le son donné.

B3

Son initial donné

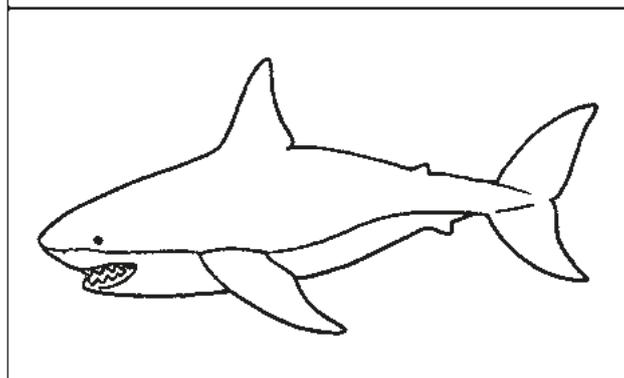

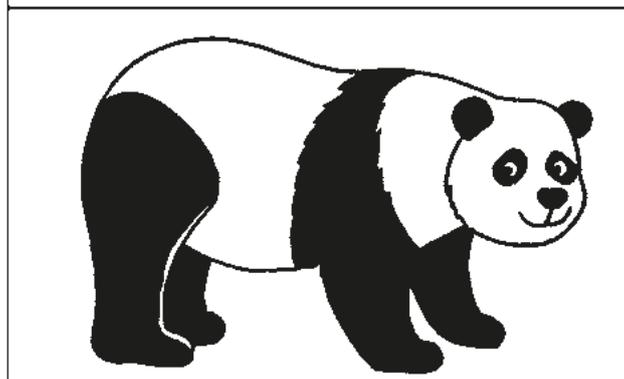

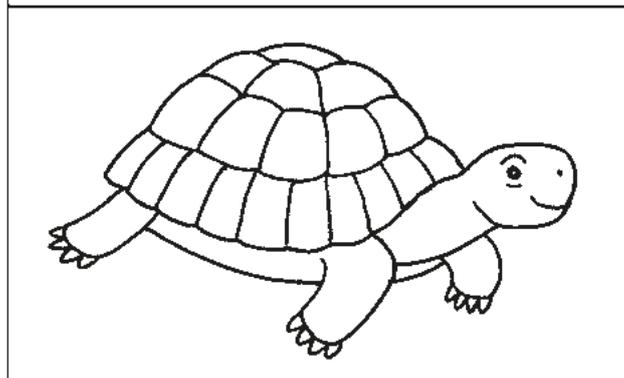

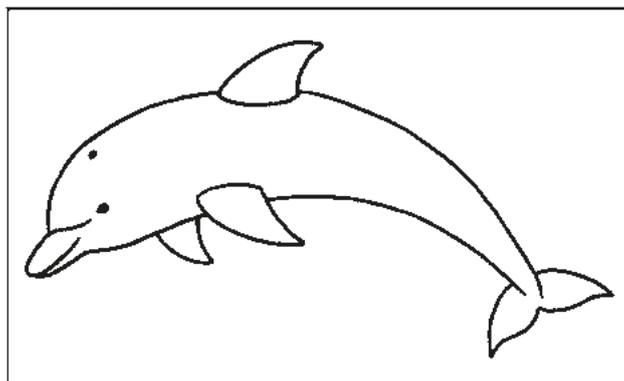

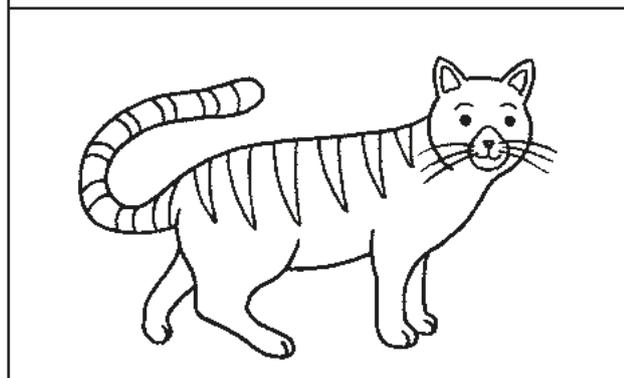

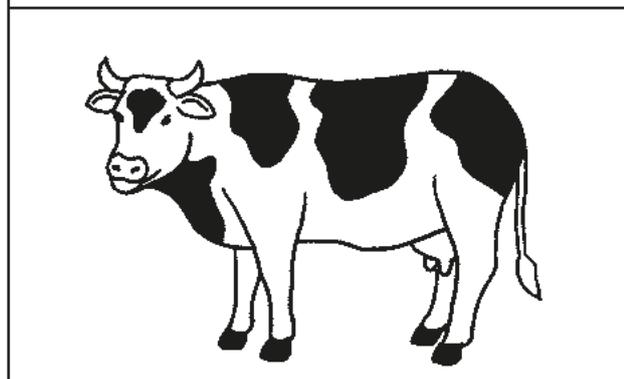

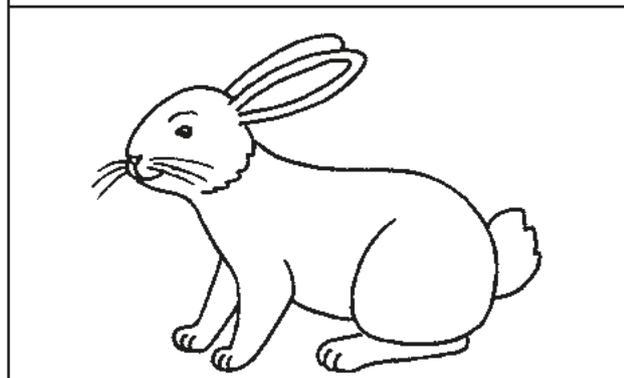

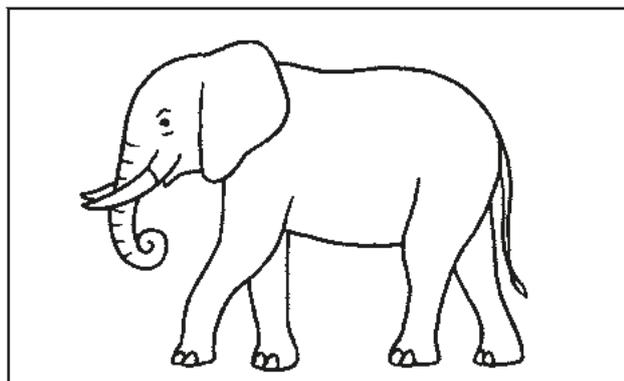

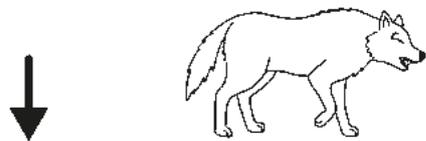

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le son donné.

B4

Son initial à identifier

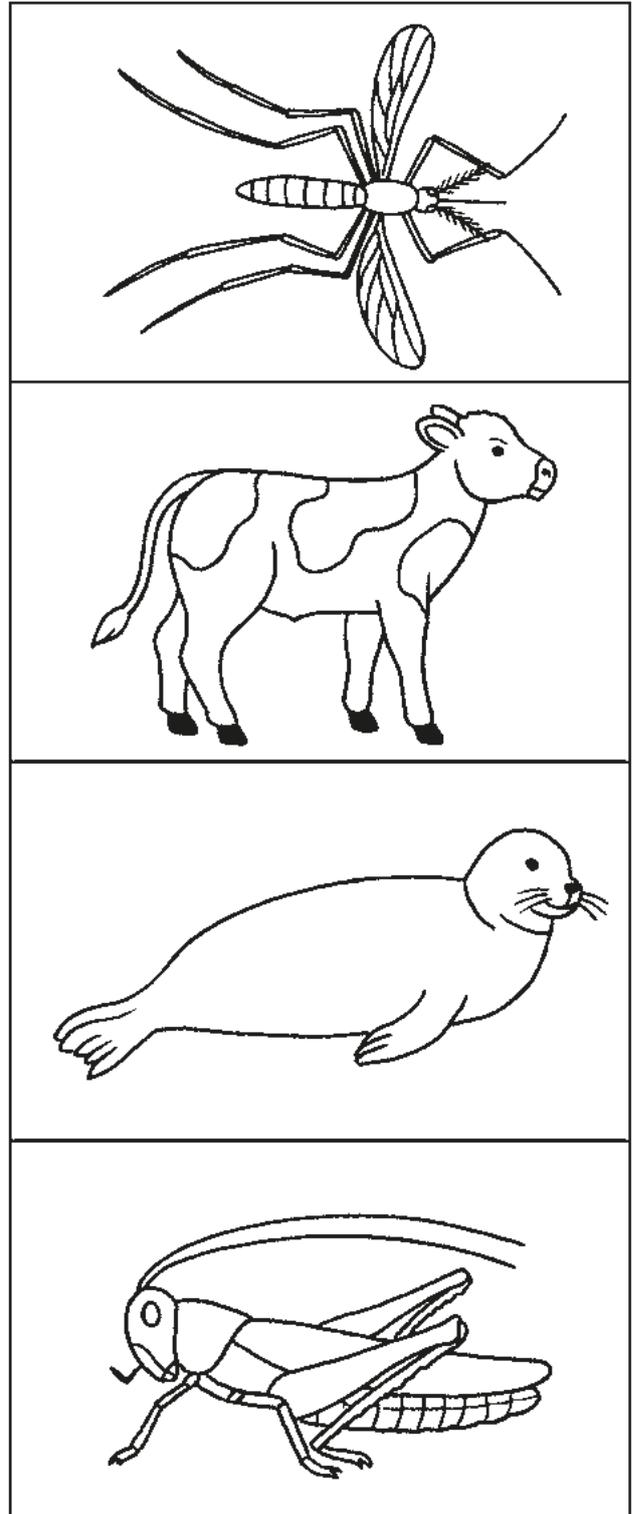

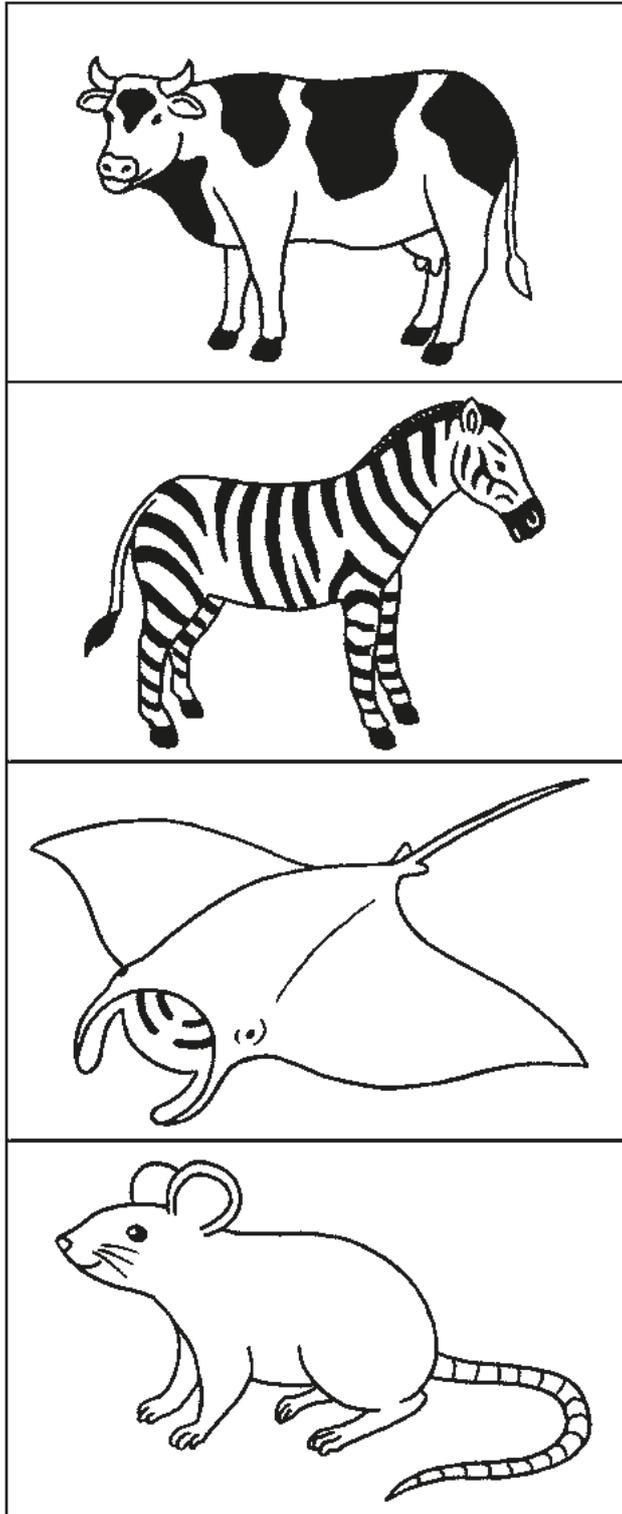

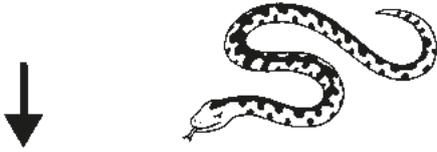

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le même son que le mot dessiné en modèle.

C1

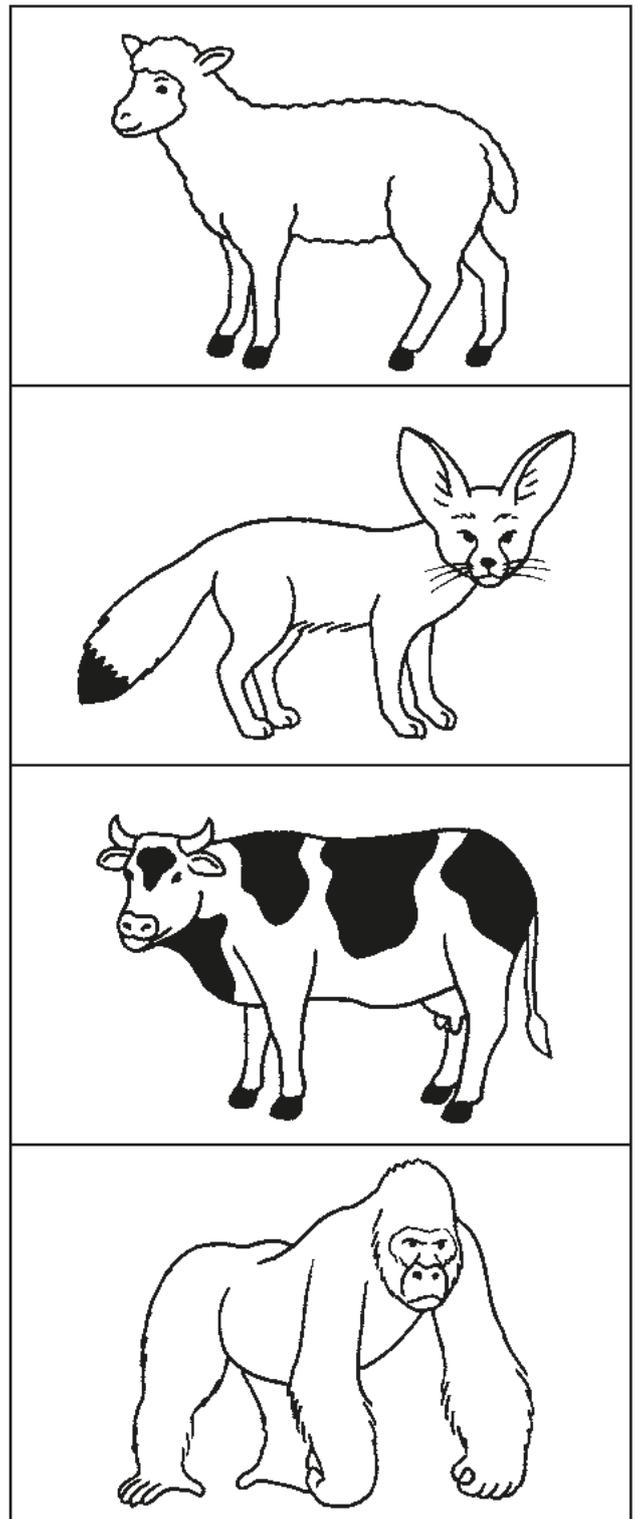

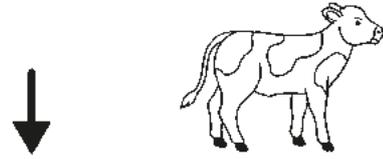

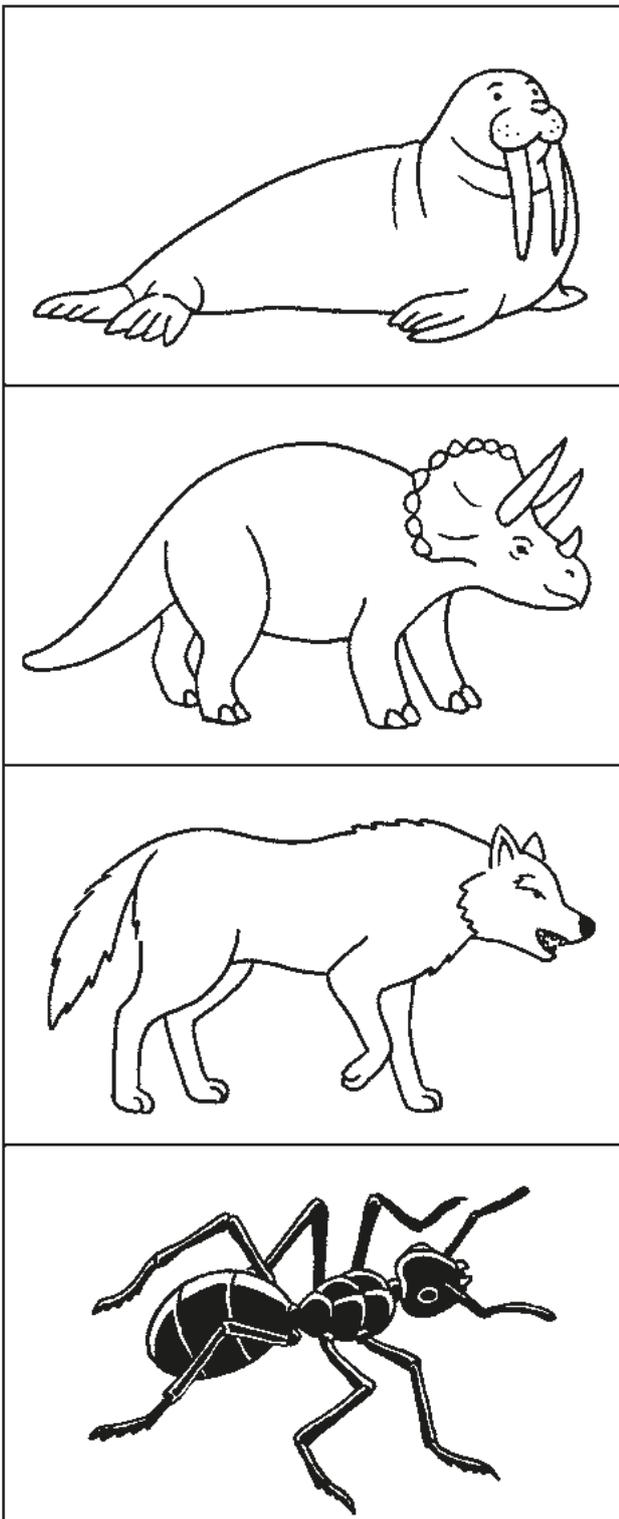

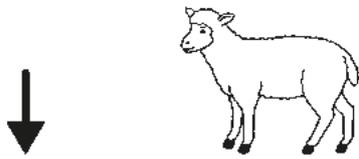

Son initial à identifier

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le même son que le mot dessiné en modèle.

Son initial à identifier

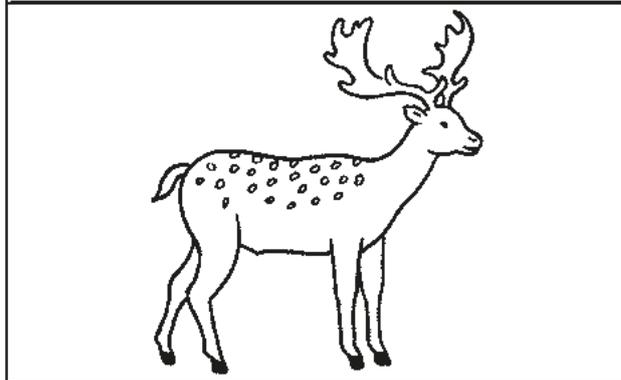

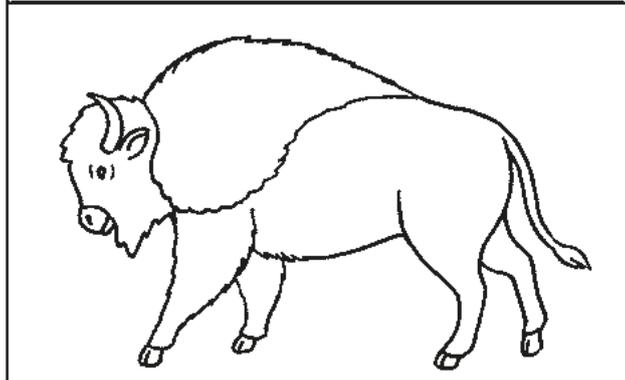

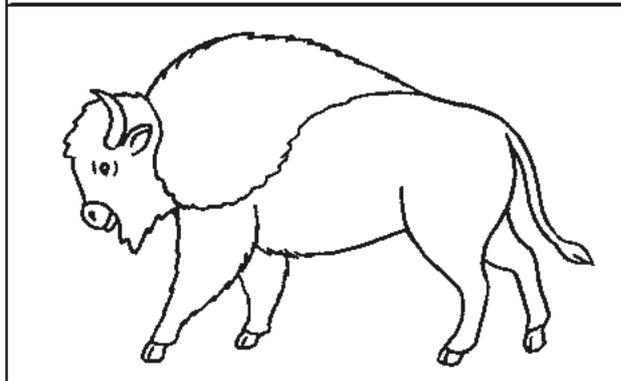

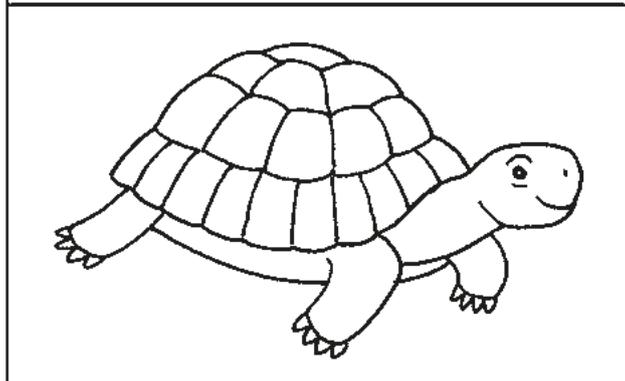

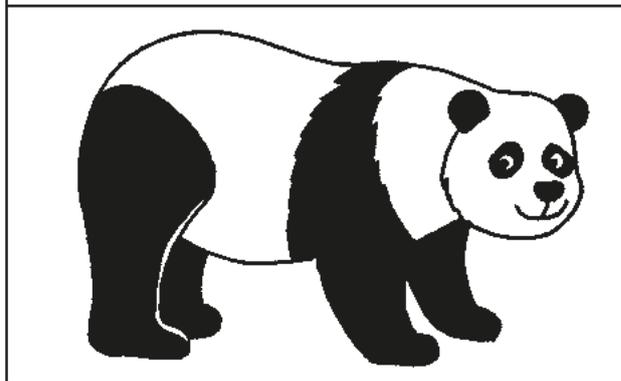

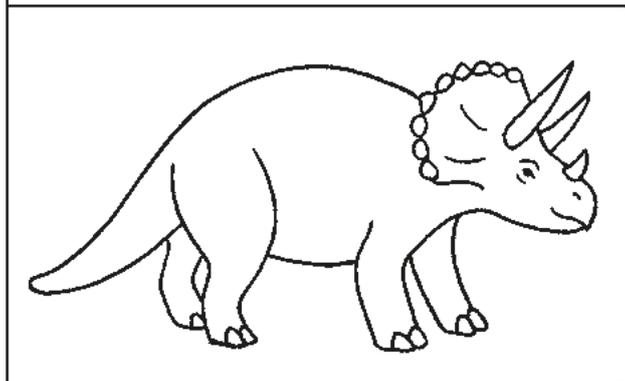

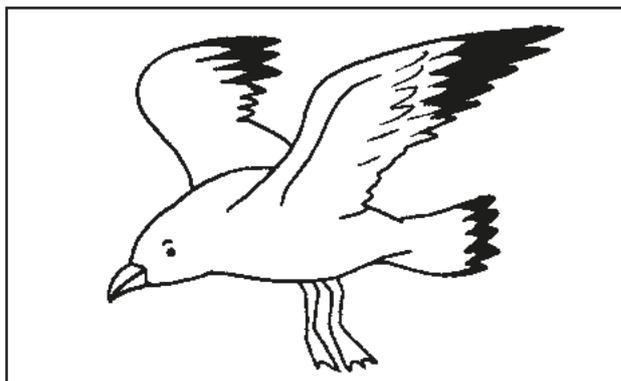

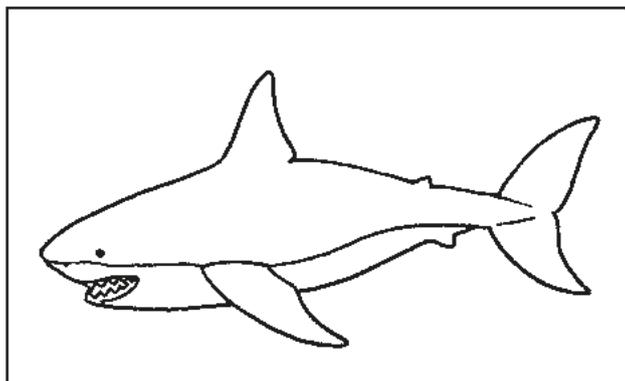

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le même son que le mot dessiné en modèle.

C3

Son initial à identifier

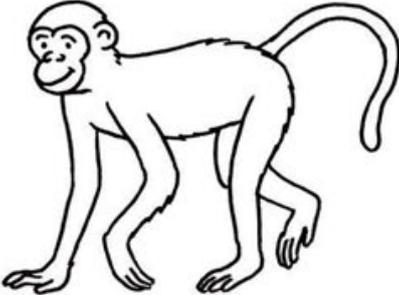

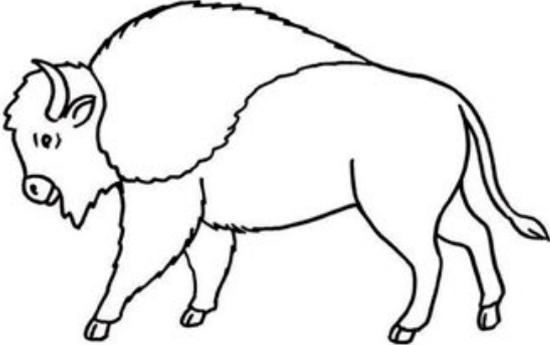

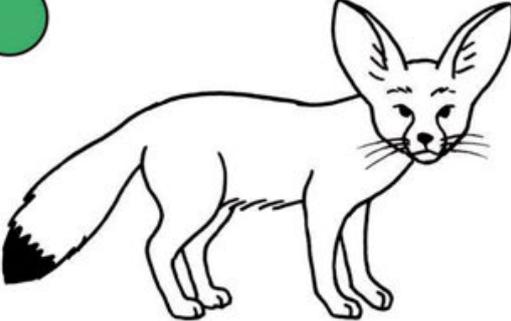

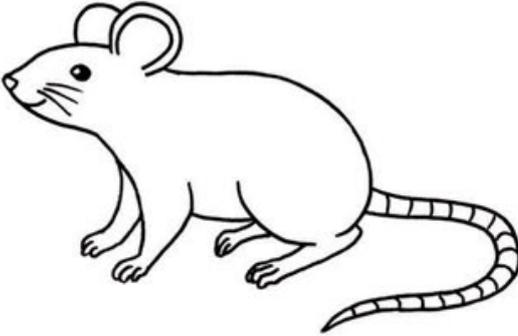

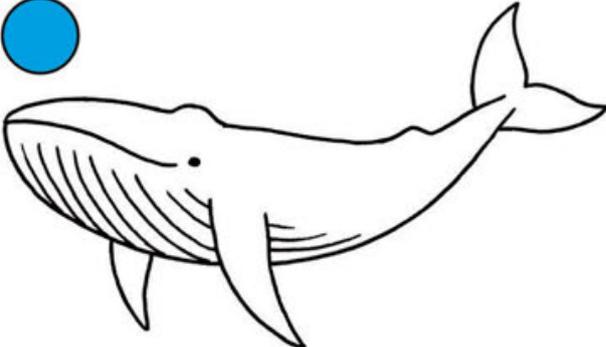

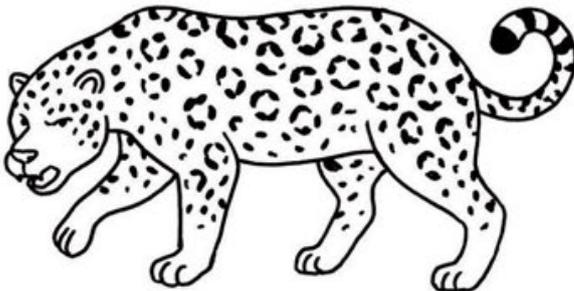

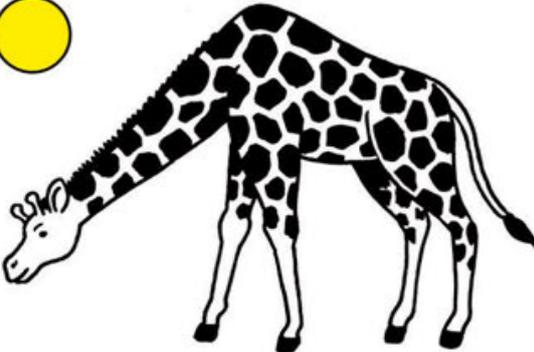

→ Dans chaque colonne, sélectionne le dessin du mot qui commence par le même son que le mot dessiné en modèle.

C4

Son initial à identifier

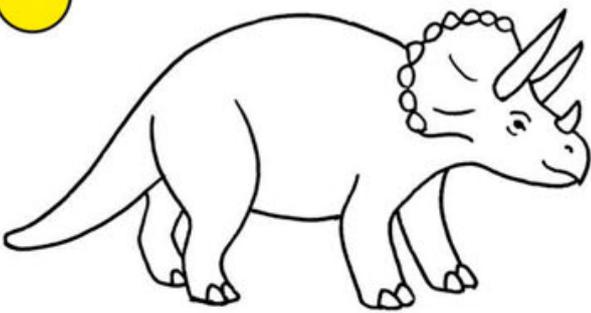

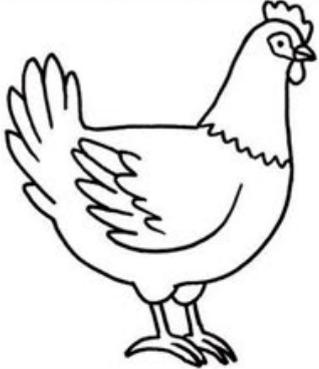

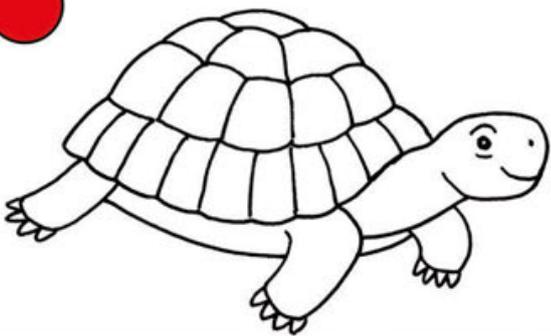

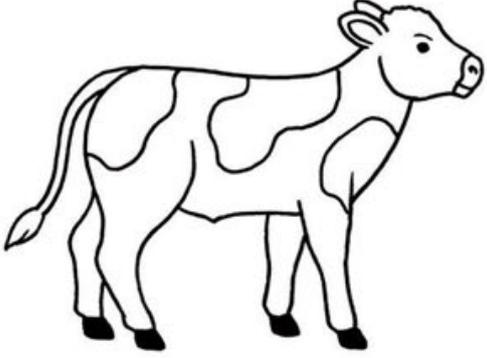

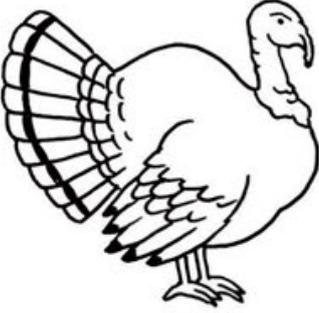

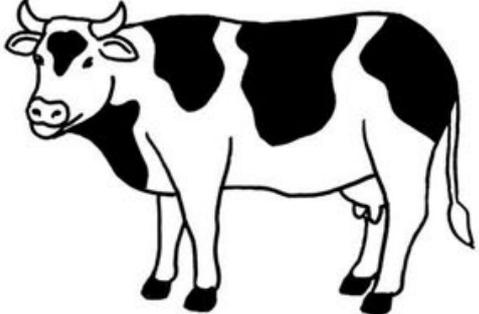

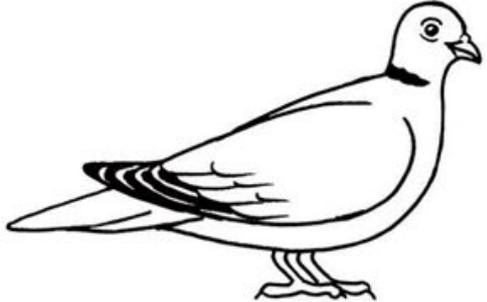

→ Pour chaque mot dessiné de la première colonne, trouve celui de la deuxième colonne qui commence par le même son. Clippe une pince de même couleur.

DI

Son initial à identifier

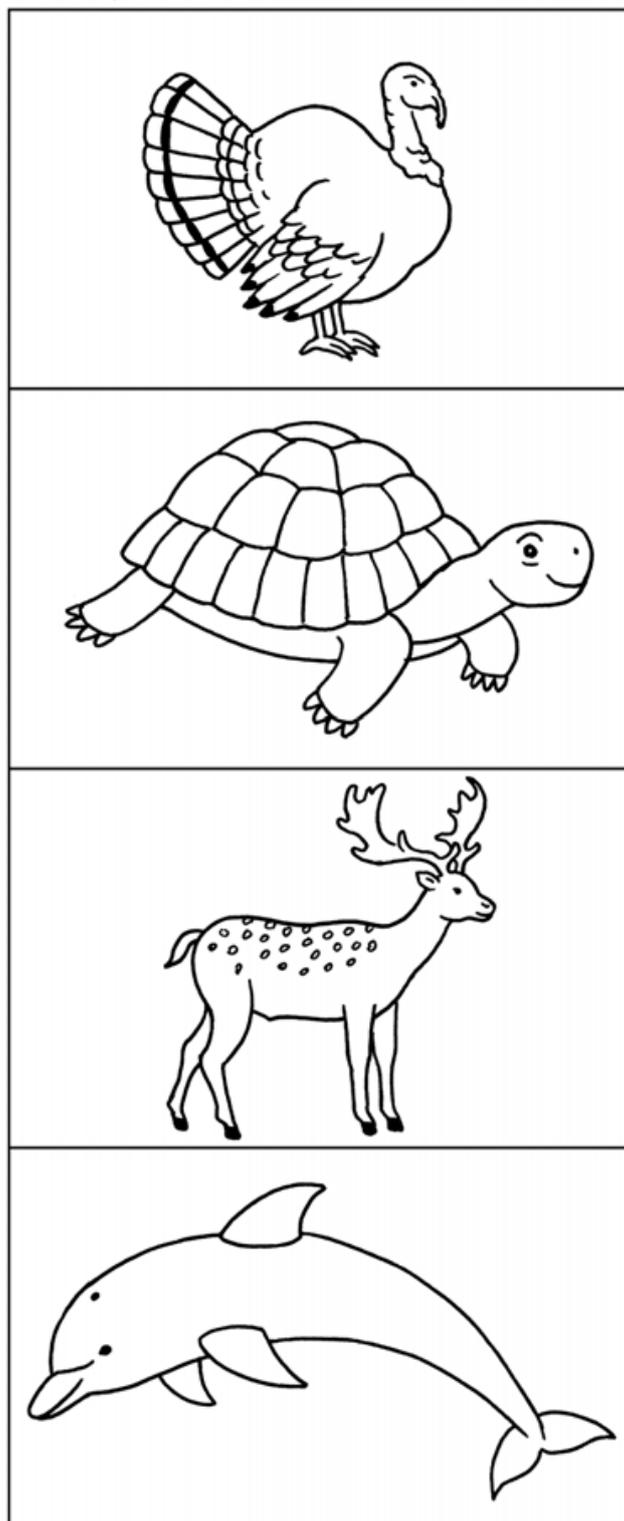

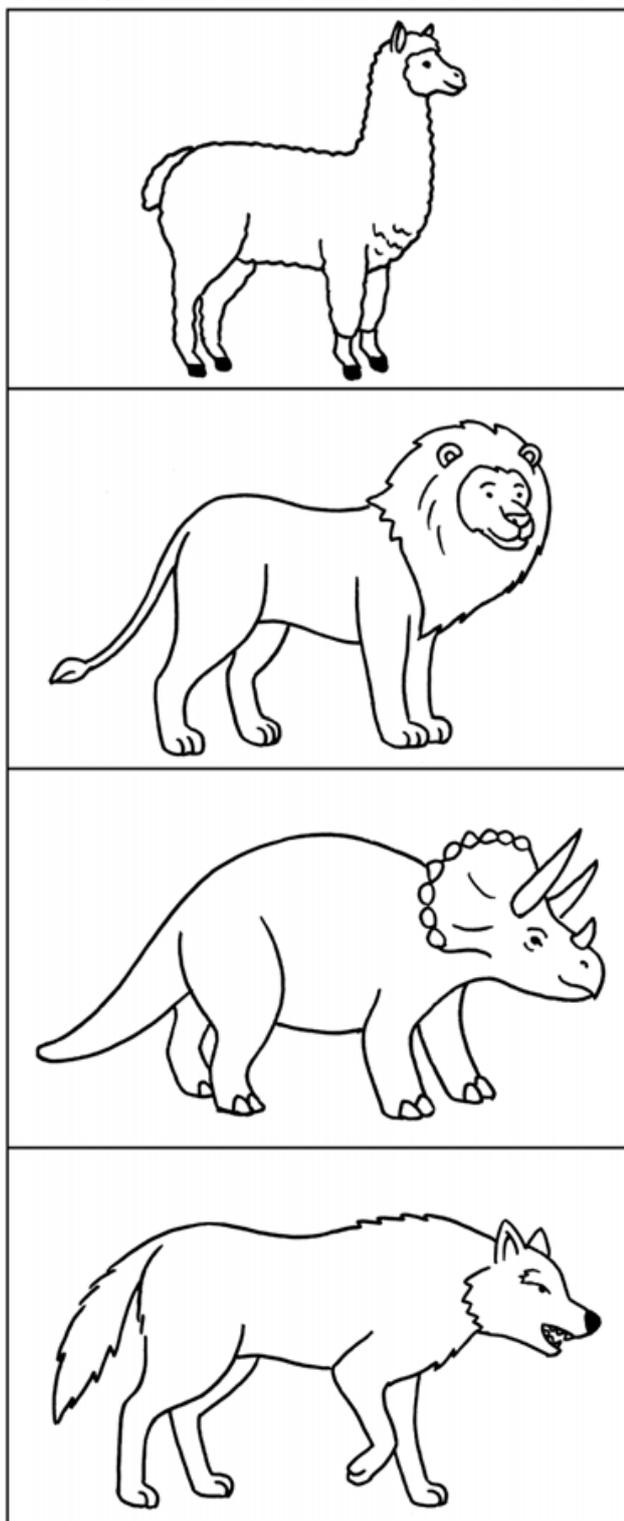

→ Pour chaque mot dessiné de la première colonne, trouve celui de la deuxième colonne qui commence par le même son. Clippe une pince de même couleur.

D2

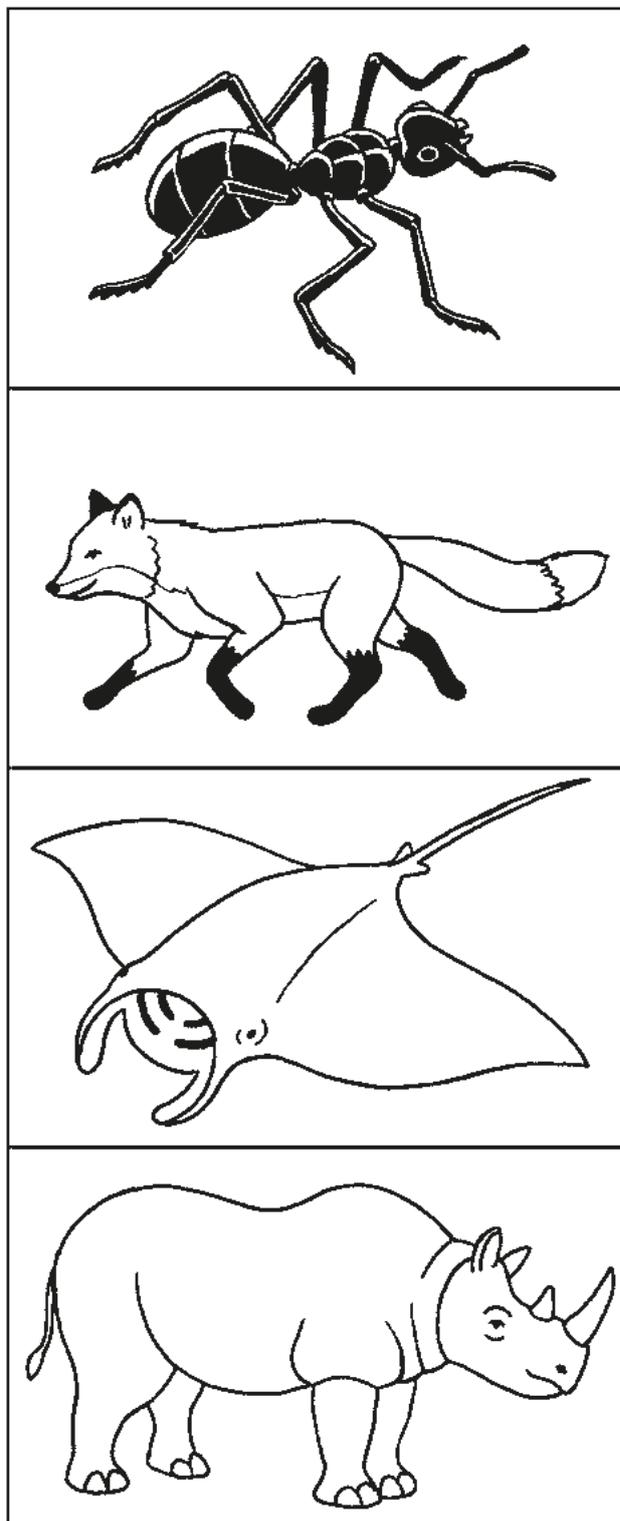

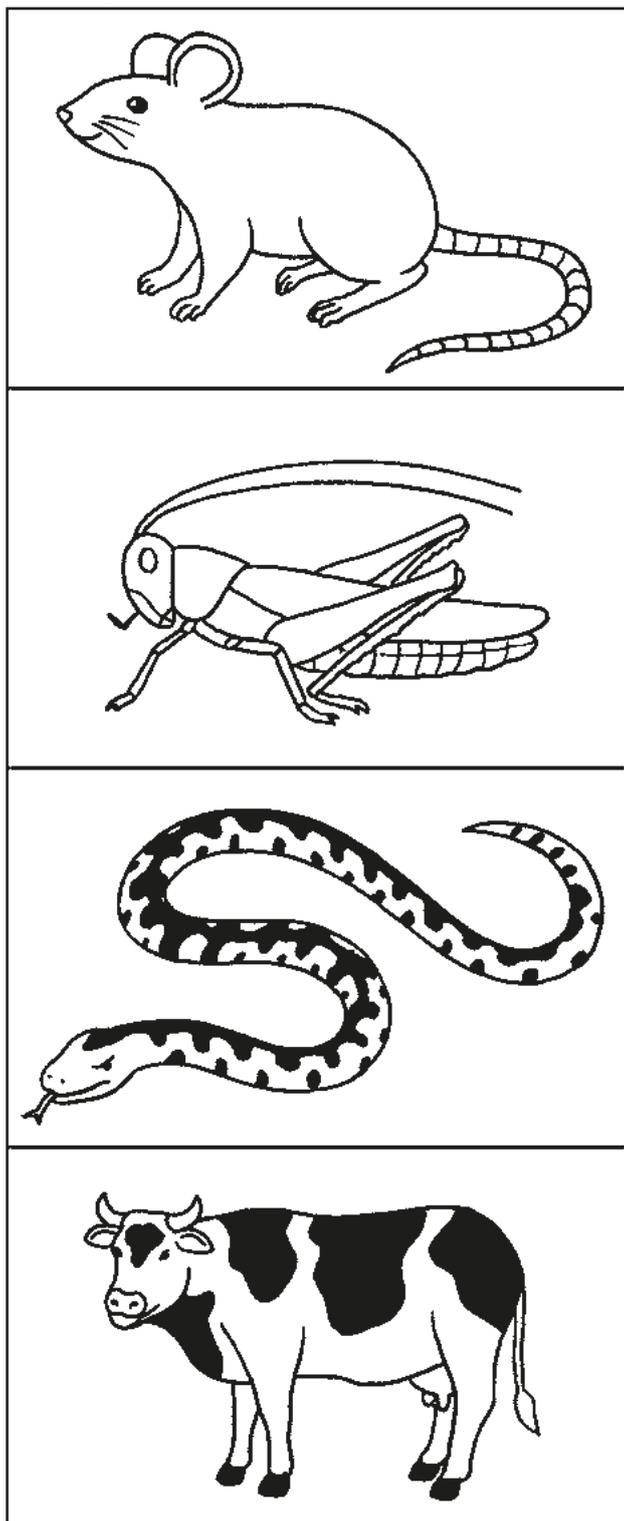

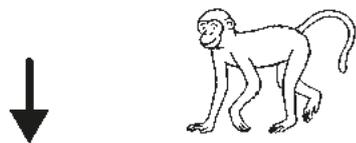

Son initial différent

→ Dans chaque colonne, sélectionne le dessin du mot qui ne commence pas par le même son que le mot dessiné en modèle.

Son initial différent

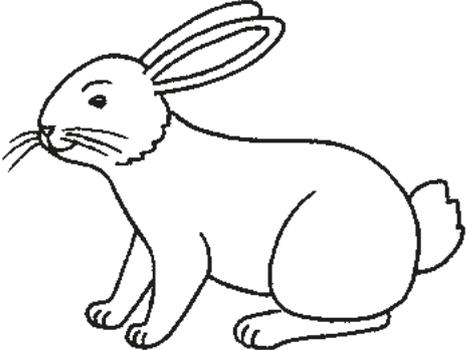

→ Dans chaque colonne, sélectionne le dessin du mot qui ne commence pas par le même son que le mot dessiné en modèle.

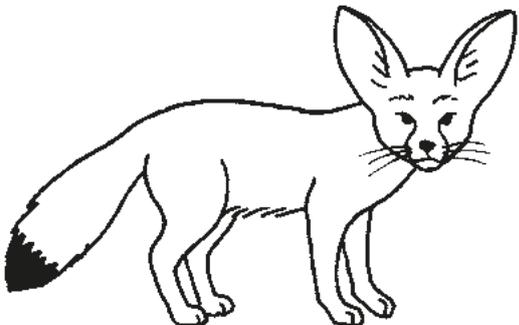

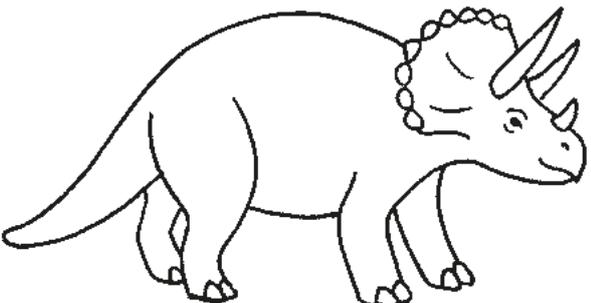

Lien son-lettre, lettre-son

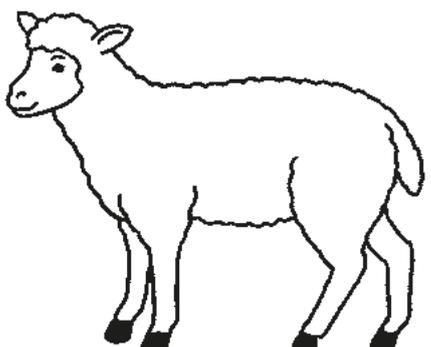

→ Sur chaque ligne, sélectionne la lettre qui correspond au son que tu entends au début du mot dessiné.
